## Cross Line Laser

### CT16LGB

#### TECHNICAL DATA

PRT No	CT16LGB
Laser power	30mw
Laser line	2H2V
Laser wavelength	515nm
Line width	10m/4mm
Automatic anping correction	±4°
Operation temperature	10C°-50C°
Line accuracy	±1mm/5m
Battery life	8.25h(21700-9000mAh), 2.25h(18650-24000mAh)
Product size	131x88x138mm(LxWxH)
Unit weight	0.465kg
Including	laser level*1,battery*2, Product instruction manual*1, 2.4G remote*1, 2A Charger*1,Cable*1,

Output of four\* 360 degree 4D green line lasers

Used close to the wall ,and the minimum distance from the wall is 6mm ,from floor 7mm

Suitable for indoor and out door use

Strong metal window design

IP54 waterproof and dust proof

Strong and high quality magnetic bracket and rotating base

New design of lifting base with rotating function

Removable battery design
